

Best of OUR PLANET

 Rosé

This rosé wine has a beautiful, lively colour and delicate aromas of red fruits and sweets. It tastes fresh and fruity, juicy and round, with an aromatic, quite long finish. This wine is obviously ideally suited to accompany summertime buffets and barbecues, but it's also perfectly enjoyable as an everyday wine.

The name Organic Wine Pays d'Oc IGP is exclusively given to wines produced in the Languedoc-Roussillon region and approved by the association of Pays d'Oc producers. These wines have to meet stringent quality requirements, as the organic label is strictly controlled by the organisms certified by the European Union.
